

SAIF SAQER BTOUSH

Junior Full-Stack Developer · .NET · Angular · Flutter

Amman, Jordan · saif.btoush@gmail.com · +962 799 230 865 · linkedin.com/in/saif-btoush · github.com/saifirst

PROFESSIONAL SUMMARY

Junior Full-Stack Developer with production experience building enterprise RESTful APIs and Angular frontends in .NET Framework 4.8 / C# / EF6 / SQL Server. Hands-on with IIS deployment, EF6 schema migrations, .NET security hardening, and UAE ICP portal integration. Cross-platform mobile experience with Flutter & Firebase. Active coding educator with private tutoring and a developer community on social media.

TECHNICAL SKILLS

Languages:	C#, TypeScript, JavaScript, Dart, Python, C++, HTML5, CSS3, VB.NET
Frameworks:	.NET 4.8, ASP.NET MVC, Entity Framework 6, Angular 10, Flutter (Bloc)
Databases:	SQL Server (schema design, EF6 migrations, LINQ), Firebase (Firestore, Storage)
Backend:	RESTful Web API, IIS deployment & configuration, Web.config hardening
Security:	.NET Assembly & Stack Trace Disclosure mitigation, secure deployment practices
Tools:	Git, GitHub, Jira, Figma, JetBrains Rider, Claude Code, Electron, Node.js
Practices:	Agile / Scrum, Clean Architecture, TDD, Code Review, CI via Git branch workflows

EXPERIENCE

Junior Full-Stack Developer

Aug 2025 – Present

EPYA Solutions · Amman, Jordan

Full-time

- Engineered and maintained production-grade RESTful APIs across a large-scale enterprise platform, applying clean architecture principles in .NET Framework 4.8, C#, and Entity Framework 6
- Delivered end-to-end full-stack features — from database schema design and EF6 migrations through to Angular 10 UI components — ensuring consistency across backend and frontend layers
- Designed and implemented robust data synchronisation logic in C#, incorporating deduplication strategies and conflict-resolution handling to maintain data integrity across integrated systems
- Owned deployment configuration on client environments, diagnosing IIS issues and managing Web.config settings to ensure stable, zero-downtime production releases
- Contributed to security hardening, audit logging infrastructure, and release documentation — maintaining quality standards across the full software delivery lifecycle

Junior Full-Stack Developer — Intern

May – Aug 2025

EPYA Solutions · Amman, Jordan

Internship

- Contributed to a professional enterprise codebase from day one — building Web API endpoints, resolving EF migration conflicts, and delivering Angular UI features under real production constraints
- Rapidly deepened expertise in LINQ, clean architecture, and team Git workflows, consistently writing maintainable, review-ready code

Programming Instructor

Nov 2024 – Jul 2025

CIH Academy · Amman, Jordan

Part-time

- Designed and delivered programming courses for beginners, translating complex concepts into clear, project-based learning experiences — also running private tutoring sessions and an active developer community on Instagram

PROJECTS

Masarok App - She Leads Campaign

Apr–Jul 2025

Cross-platform app helping students choose academic/career paths via guided assessments & personalised recommendations.

Stack: Flutter, Dart, Bloc, Firebase, Figma

Afiyah Nafsiyah App - She Leads Campaign

Apr–Jul 2025

Mental wellness app for youth (14–24): mood tracking, podcasts, meditation & guided breathing exercises.

Stack: Flutter, Dart, Bloc, Firebase, Figma

Islamic Prayer Times Dock App

2025

Windows desktop dock app with snap-to-edge, settings panel & mouse-event transparency via the AIAdhan API. Shared on Instagram — reached 3,000+ users.

Stack: Electron, Node.js, JavaScript

EDUCATION

B.Sc. in Software Engineering - Mutah University

Oct 2021 – Jun 2025

Al-Karak, Jordan

GPA: 3.3 / 4.0

- Member of ACM, IEEE, and Mutah Developers · Competitive programming: JCPC & ACPC — top 30%
- Coursework: Data Structures, Algorithms, Software Architecture, Database Systems

LANGUAGES

Arabic — Native · English — C1 (Professional Working Proficiency)
